

## *Beyond those ocean waves!*

Below that ocean sunset,  
Colorful schools swim by,  
The coral reefs shining brightly,  
Dolphins leap and play,  
Waves crash to the shore.

Gross and smelly pollution,  
Islands of trash float by,  
Harmed animals in pain,  
Dead coral dragged onshore,  
Warming, melting icecaps.

Reduce, Reuse, Recycle,  
Rushing rivers kept clean,  
Icky trash put in bins,  
Beautiful-green forests planted,  
Smoky cars become shiny bikes.
