

## A Drop of Kindness

A single drop of rain  
Starts a shower  
That is much needed

The raindrops fall  
For all to enjoy  
And receive some kindness.

The seemingly small drop,  
Provides a plant some water  
The plant grows and gains

It develops into an amazing thing  
Maybe the rain gave the beam of inspiration  
Or it grew something that was already there

The problem with this though,  
Is some people  
Drain the rain and we hit a drought

But some plants can stand  
And then the good of the world  
Does the small effort

And brings some rain again.
